THE BANKERS' & MERCHANTS' *GRAND* Presentation Enterprise

HAS PROVEN

A WONDERFUL SUCCESS ! !

Capital, Tickets and Prizes increased from

$1,207,148 to $1,500,000,

Making this the most Stupendous and Successful Presentation Scheme ever Inaugurated in the World.

OUR AGENTS have received orders for over One Hundred Thousand Tickets more than our original issue, and the Managers being desirous of filling the orders and supplying the demand, have decided to increase the tickets from 1,257,148 to 1,500,000.

THE COMMITTEE appointed at the first Concert have decided to distribute the Prizes at the third and last Concert, which will take place at IRVING HALL, in New York City, on

THURSDAY, October 24th, 1867.

TICKETS ONE DOLLAR EACH.

A PRIZE WITH EVERY TICKET.

PROSPECTUS.

A number of the leading Bankers and Merchants of New York, in consideration of the great success which has attended many of the Charitable Presentation Entertainments of the day, have formed themselves into a company, with the view of inaugurating an enterprise which, while it shall return them a fair profit, shall offer greater advantages to ticket-purchasers than any yet presented; and which being conducted upon a perfectly legitimate and business basis, shall be free from those objectionable features which have characterized many of these enterprises.

To this end they have consigned the sale of tickets and the registering of the same, to Clark, Webster & Co., Bankers and Managers, No. 62 Broadway, New York, who will keep the records in their custody until the day of the Grand Presentation Entertainment, when they will be handed over to a committee selected by the audience to make an impartial distribution of Presents.

A reference to the number of presents and the general plan of distribution, given below, will convince even the most skeptical of the great advantages which will accrue to all who participate in the enterprise; and the Commercial and Financial standing of the Company, and the Managers and Bankers thereof, will, they hope, prove a sufficient guaranty of the fairness and impartiality with which everything in connection with it will be conducted, and that the interests of ticket holders will be most strictly watched over and guarded. In fact, it is the desire of the Managers to conduct every transaction for the mutual benefit of whoever shall purchase a ticket, and scrupulously to avoid any and everything which could in the slightest degree diminish the profits which are likely to accrue to all who invest.

A CONSUMPTIVE CURED.

DR. H. JAMES, a retired physician of great eminence, discovered, while in the *East Indies*, a certain cure for *Consumption, Asthma, Bronchitis, Coughs, Colds, and General Debility*. The remedy was discovered by him when his only child, a daughter, was given up to die. His child was cured, and is now alive and well. The Left Slipper.

(Continued.)

—o—

"I did, sir, and put it in my pocket-book, as I thought you had most likely dropped it."

"Thank you, Haley. Just like you. I admire a young fellow that has his wits about him."

I put my hand in for the pocket-book, and forgot all about the slipper for a moment in my pleasure at my employer's praise; but it had not forgotten me, and tumbled out. The sandals, being entangled with the pocket-book, hung from my hand, as I slipped the elastic off the book, and then the slipper fell upon the floor. All this happened much more quickly than I have written it, but a grave frown rested on my employer's face as I handed him the paper.

"Take care, Haley. Don't resent it if I give you a fatherly word of warning. It is better a young man should not carry such things in his pockets; at least, should not allow other people to see them."

I looked up astonished. Mr. Arnold, second partner in the firm, was fifty years of age, and a bachelor. What did he know about such things?

"I think I could explain to your satisfaction, sir, that this is an accident, if you had time; and really involves nothing at all wrong."

"I quite believe you, Haley; but every one won't be so merciful."

Mr. Arnold went out and closed the door. I never thought,—never guessed before what elaborate circumstances might depend upon a slipper; but when I got home I locked it away, determined to bring no more annoyance upon myself by keeping it too close at hand.

I had invited one, two or three young men a few days afterwards to have a pull on the river, and then to sup with me.

After a pleasant hour and a half we came back hungry and exhilarated. I conducted my friends to my room; and, whilst we chatted, Mrs. Pottle brought in supper. A discussion arose about a lecture of Ruskin's, and his opinion of a certain picture of Turner's. "I can tell you exactly what he said," I exclaimed, pulling out my keys and opening my desk, "for I copied the paragraph into a note-book."

I turned down the lid, and there in sight of my three friends was—not only the note-book, but the little left slipper, for that unknown, unseen foot. A roar of laughter recalled me to my senses.

"Is that a Chinese specimen, Haley? I heard you you'd bought one."

"What a sly boy you are! Who is she, Haley?"

"Brown, turned out with blue. Very tasty indeed, I should say."

"Meet me by moonlight alone."

"Who stole the slipper?"

"Need I say more. Mrs. Pottle, walking about the room, heard some of these remarks, and gave me, I thought, a look of malicious triumph.

"Be merciful to a fellow for once," I said desperately, "and I keep the affair secret, till I give you leave to split."

"When will that be?" asked Harry Dawson.

"Give me a month, Harry."

"And you'll let us know in a month how it goes on?"

"Yes, if I know myself."

"Haley hasn't cheek enough to carry on courting," said Dawson. "He hardly knows who's who, or who's who, or when's when. I think, my boy, you'd better come to me for a drill in the art. I've had plenty of practice on I can up to a nice little thing or two. I should advise you to get the other foot, and I have a pair of them."

"You're a dreadful mischief, Dawson," said Frank Jones. "Let the poor fellow rest in peace now, and come away home; it is getting late."

But I had no rest that night; for continually that little slipper walked round my bed, and over my chest, and on my forehead, and round my bed again.

Next day I thought Mrs. Pottle looked at her spoons and furniture suspiciously, and appeared ill at ease; the day after that I found her hunting behind my sofa when I came in to breakfast, and I ventured to say, "Are you looking for anything, Mrs. Pottle?"

"Well, no, thank you, sir," she said hesitatingly; and immediately went down stairs for the coffee-pot.

When I returned home in the evening there was a young lady in the passage talking to Mrs. Pottle; but I passed up without a close investigation. Just as I turned the corner of the staircase I heard these words in a pleasant voice, "I wish I could find it; it is such a ridiculous thing to lose! I am almost sure I must have left it in the parlor when I brought it down to show grandmamma, and forgot to carry it away. I am sorry to have troubled you again, Mrs. Pottle, and it is of no great consequence."

"Shall I ask Mr. Haley?"

"O no! Of course, if he had seen it, he would have given it to you. It wasn't *his*."

And she laughed a girlish, silvery, merry laugh.

I softly opened my room-door and went in. Would she think me a thief, then? Who was she? The front-door closed after a "Good evening, Mrs. Pottle," and I looked out of my window, and watched her; then, taking my hat again, ran down stairs, obeying a sudden impulse, and followed her.

Soon she turned into a wide street, then another, and then calling a cab, she stepped into it; but I heard the address,—No. 14, Victoria Terrace. So I called another and followed her. On we went till the terrace was reached, and I stepped out, dismissed the cabman, and waited for Cinderella to alight. A curious accident occurred here; the horse took fright as the driver descended to open the door, the poor man fell on the pavement, and the young lady whose foot was on the step, fell into my arms; but I could not avoid her receiving a bad sprain, though she acted bravely, like a true little heroine, and did not faint.

"You are hurt, I fear," I said, carefully lifting her in my arms, and slowly ascending the steps. Just then the door of Number 14 opened; an old lady and gentleman and one or two servants appeared. The poor old gentleman began to cry. He was evidently childish. "Look to the poor cab-driver," I said to the servants as I passed. "Madam, where shall I carry the young lady?"

"In here sir, if you please. I am so very much obliged to you; it would have been the death of us both if anything ever happened to Katie!"

The old lady led the way to a handsomely furnished dining-room, and I laid Katie on the sofa. She opened a pair of very mischievous brown eyes, and looked up in my face.

"I'm very much obliged to you, sir;

I'm afraid I'm very heavy. Where is that poor cabman? Will you see about him for me? and don't let him want for anything."

I promised to do so, and come back at once and report to her, and I hastened down. The driver was lying in his own cab, to which another horse was being harnessed, whilst his own, rather badly wounded, was led off to the stables as he had requested the bystanders it should be. I got in beside the poor fellow, and accompanied him to the hospital.

"I should like to see my wife," he said.

"Of course you would," I replied. "I will go for her at once; where does she live?"

NEWPORT DAILY NEWS.

MONDAY, October 7, 1867.

GENERAL SHERIDAN.

Gen. Sheridan seems to have enjoyed his visit to Newport in the highest degree. It is the first time that he was ever on New England soil and he did not fail to express his gratification, not only with the beautiful scenery of the island, but also the generous and hearty hospitality of the citizens. Major-General Sherman gave him a very kind reception on Saturday at his residence, which was attended by the officers from Fort Adams, His Honor Mayor Parker and Councilman Coggeshall, representatives of the city government, and a company of other invited guests. The General during the day called on R. H. McCurdy, Esq., and visited the Post Office, City Hall, State House and other public places. He was much interested in examining the portrait of Washington by Stuart, in the Senate Chamber, and in the various relics of antiquity with which the city abounds.

Gen. Sheridan is evidently one of those hearty, whole-souled men that will always command the respect of those who know him. He has made many friends during his brief stay among us, who are thankful to President Johnson for having taken him from the presence of the yellow fever in New Orleans and placed him in a position where he can be spared for other service. The only complaint we hear is that the time of the General was so fully monopolized by a few that the public were scarcely allowed to see him.

The General left this morning for Boston. Mayor Parker accompanied him as far as Fall River where he was received at the depot by Mayor Fairbanks, of that city, in a brief address of welcome to which General Sheridan appropriately replied. A procession was then formed, amid the firing of a salute and with the escort of two military companies and proceeded up Ferry Street and through the principal portions of the city to the depot at the North part of Fall River. A very large concourse of people assembled to participate in the welcome. The mills were started later than usual to give the operatives a chance to see the General, and the streets were crowded with a vast and enthusiastic multitude who rent the air with their cheers while the bands played and the cannon bellowed.

From Fall River the train went at a rapid rate, without stopping, to Taunton where a fine reception was tendered him by the civil authorities and the military, with cannon and music. Thence to Boston, where the ceremonies, too elaborate to be described in this article, are not yet complete.

Movements of the Indian Peace Commissioners.

A St Louis dispatch of the 4th. says Generals Sherman, Harney, Sanborn and Terry and Senator Henderson, the Indian Peace Commissioners, leave to-morrow for Fort Harker and thence for Medicine Creek Lodge on the South Arkansas river, where they will hold a grand council with the Indians. Col. Taylor, now in Leavenworth, will join the commission at Lawrence. Col. Tappan, another commissioner, left yesterday with $10,000 worth of clothing and other goods as presents to the Indians.

Telegrams from Superintendent Murphy, of the central Superintendency at Medicine Lodge Creek, say that there are nearly 2000 Arrapahoe, Kiowa and Camanche Indians there. These are being fed by the Superintendent, and they are anxious to meet the Peace Commissioners and confer with them about the terms of peace and something more to eat. Little Robe, a Cheyenne chief, of the Dog Killers, is still on the war path, and it is supposed that it was some of his band that attacked Gen Morey's train on the 25th ult., at Pawnee Fork. It is reported that Roman Nose, an Arrapahoe chief, has gone to bring in hostile parties. He, with some friendly chiefs, it is said are determined to chastise the Dog Killers, if they refuse to come in.

The Indian agent, Col. Leavenworth, telegraphs that the Kiowas and Camanches are anxious to meet the Commissioners and conclude a treaty of peace with the Government.

The family of Little Robe, the Cheyenne chief of the Dog Killers, were massacred at Sand Creek by Col. Chivington with many other women and children, but he says he does not go to war for that, but because of the burning of a Cheyenne camp by our soldiers last spring. After the Sand Creek massacre these Indians came in as soon as they ascertained that the Government disapproved of the affair.

Mr. Beauvois telegraphs from Fort Laramie to the Peace Commissioners that he is confident that the hostile tribes in that section are disposed to make peace, and will come in to meet the Commissioners in the full moon of November.

A dispatch from Alexandria, Egypt, announces the arrival of the steamer *Quaker City* with the American excursion party on board. All well. Captain Duncan telegraphs that the *Quaker City* will leave Alexandria on the 7th inst., and, after touching at one or two points in the Mediterranean, will reach Gibraltar before the 27th of October, when she will sail directly for home.

The Washington correspondent of the New York *Evening Post* says that, whether there is any truth or not in most of the recent rumors of official changes at Washington, it is known that at least one officer of the Cabinet, General Grant, anticipates being relieved from the duties of his position as Secretary of War at no distant day.

A Diamond Wedding

The rare elegance and lavish display which have made Fifth avenue weddings remarkable, have been reproduced in a nuptial ceremony performed in our city yesterday. The daughter of a most opulent and successful merchant having gone the way all the members of the female persuasion are said to be desirous of following, was presented by her parents with the comfortable dowry of $100,000 with which to commence the trials and vexations of the matrimonial state. The most elegant display of presents was made, a centre-piece valued at $25,000, being filled with the rarest *bon bons*—fruits, flowers, etc. We understand that the bride and spouse start for Europe next week to spend two years, including the honeymoon. The bridegroom was presented by his father-in-law, with $25,000, with which to meet the expenses of the trip, and with which to complete his medical studies.

We learn that the same gentleman presented his son, who was married last week to a lady in Louisville, Kentucky, with $100,000 to give him a start in the world. *Prov. Herald.*

SHERIDAN'S POLITICS.—It is probably the desire of Sheridan's best friends that the grand ovation which now signalizes his progress at the North should be devoid of partisan distinction. Still, we observe that certain Democratic organs insinuate that his trip is for the purpose of making political capital. It is certainly strange that an officer of twenty years' service cannot be allowed rest long enough to see a little of the country he has helped to save, without his journeying being attributed to selfish motives. Besides, we are not aware that he has of late given utterance to anything of a political nature, unless it be the following, viz: "I certainly know that heretofore I have not, and I believe that hereafter I never shall, by any act of mine, attempt to make Rebellion honorable. Rebellion is a crime, and it shall not be made honorable." If declarations like this are to be considered as stamping a man's party relations, they are certainly of the most creditable nature, and neither Gen. Sheridan's friends nor himself would probably miss the attentions of anybody belonging to the opposite party. *Boston Journal.*

THE TRIAL OF JEFF. DAVIS.—A Washington special says:

Hon. James Lyons, of Virginia, one of the counsel for Jeff. Davis, stopped here yesterday on his return from Canada, where he had been to consult with his client relative to the approaching trial in November. Mr. Lyons says the defendant is ready and anxious for a trial. The line of defence will be to admit all the facts and deny the legal conclusions. It will be contended that the recognized constitutional doctrine prior to the war, as taught by the North and South, was that the citizen owed his first allegiance to his State. It having immediate control of his life and property, treason to the State involved the loss of both, and in a controversy between the States and the Federal Government, if adhesion to the State was treason to the Federal Government, the citizen was so circumstanced that he was guilty of treason whichever side he espoused. It will be denied that our Government could have been so framed as to involve the citizen in treason with a loss of property and life in spite of any effort on his own part to prove loyal. The constitutional question is one which had never been judicially settled, and as the "State Rights" view of it had generally had been taught and maintained by the leading men of all sections, the defence will claim that the opposite doctrine cannot now be settled for the first time by the conviction and punishment of Jefferson Davis. They regard the question as now fully settled by the war outside of the Constitution, but will deny the justice of applying the decision to transactions happening before the question was settled.

A REBEL OPINION.—The Washington correspondence of the Baltimore Gazette writes to that paper;

The newspapers at a distance have been puzzled at the 'position' of Gen. Grant. I can relieve that anxiety. He is now substantially the Radical candidate for the next Presidency. The leaders of the party which aims at usurping the Government, who have in squads been visiting, at intervals, the metropolis ever since the *emeute* of Stanton's removal, some time ago came to the conclusion, in view of their probable defeat in the coming elections, to keep Grant in the background for the present. He was anxious to promulge a written adhesion to the dogmas of the destructives at once. I have specific information that this Goliah is reserved to break the force of the defeat which awaits the party, and that he has promised Schenck, Logan, Washburn, Farnsworth, &c., who have been recently manipulating him to come out with his "great name" upon the heel of their discomfiture. The spasmodic efforts of Judge Chase are quite superfluous. I record this fact for future reference.

Last Monday was the Jewish New Year, and in reference to it the *Jewish Messenger* notes the curious fact that the stock market was unusually dull, "owing to the absence of the Israelite operators who, whether bulls or bears, are not to be despised or silenced." Frankfort dispatches announced a virtual suspension of business in that city, from the same cause. The *Messenger* also asks how it will be next Wednesday, and advises Wall street to close early on that day. Wednesday is the Day of Atonement, when "millions of persons fasting for twenty-four hours shall, at the close of the fast, with one voice proclaim the Unity of God, and after hearing the *Shophar's* shrill clang shall return home to their dwellings, in the deep consciousness that a good work has been accomplished." The growth and power of the Jewish element in the United States are among the most remarkable phenomena of the last ten years.

SUFFRAGE FOR WOMEN.—Five United States Senators, Wade, Sprague, Nye, Pomeroy and Ross, nine United States Representatives, of Kansas, Pennsylvania, Indiana, Massachusetts, Ohio, Iowa and Michigan, one Governor, Crawford, of Kansas, Wendell Phillips, Geo. W. Curtis, Henry Ward Beecher, Gerrit Smith, Theodore Tilton, and a number of other persons whose names are less familiar, have issued to the voters of the United States an address in favor of Female Suffrage.

Thirty-nine sheep and forty head of cattle were destroyed by the burning and sinking of a bark at New York, on Thursday.

Local News Items.

GOING AWAY.—The regular Fall exodus of our summer residents is now rapidly progressing, hastened, no doubt, by the foretaste of winter which we are now undergoing. Large numbers went, bag and baggage, Saturday night in the New York steamer, and not a few this morning, in the Providence steamer.

ACTIVITY IN STOVES.—Our Providence friends appear to be anticipating a large demand for artificial heat, the coming winter. A dealer came down from that city, Saturday and bought up all the Second hand stoves in Newport, and they were shipped to him by the Providence steamer this morning

SALE OF A FARM.—The "Samuel Barker farm," on Slocum's river, Dartmouth, containing about 500 acres, with buildings, &c. was sold at auction on Tuesday, last week, by Wm Barker, Jr., Esq., to Mr. Paul Barker, of Rhode Island, for $7009.

THE TOGUS MILITARY ASYLUM.—The U. S. Military Asylum at Togus, Me., is fast filling up. There are 200 soldiers there besides about fifty employes. Extensive additions are being made. The foundation is laid for a brick hospital 100 feet long by 40 wide, two stories high, to be completed this season. Another building of brick about the same size is to be erected another season, for laundry, baking, cooking, &c. A chapel is to be erected to accommodate 600 persons. The chapel is to be used as a school room where pupils connected with the asylum who wish it are to be fitted for teachers. A large work shop is to be erected where all kinds of mechanical work will be taught. A line of telegraph from Augusta to Togus is just completed, on which the inmates are to be taught the art of telegraphy. When completed, the entire washing and cooking is to be done by steam.

While in prison at Alexandria, Garibaldi persistently refused to give his parole not to engage in any hostile enterprise against Papal States. Meanwhile the Italian government, hoping to allay the popular excitement caused by his arrest, gave orders for the transfer of the prisoner to his home at Caprera, without insisting upon the parole. Gen. Garibaldi was accordingly taken to the island where he was apparently set at liberty. Soon after his arrival he suddenly disappeared from the island and succeeded in reaching the main land, but his movements had been carefully watched, and he was again arrested and sent back to Caprera where he now remains under guard, a prisoner in his own home.

A New Orleans dispatch of Friday says: Judge Abel, counsel for Henry Smith, accused of perjury, filed an exception yesterday. The case is being tried before Recorder Dunn, of the Second District Court. Dunn is the negro lately elected by the new Council. Judge Abel sets forth that Dunn, being a negro, is unrecognized by the laws of Louisiana as a citizen, and hence he is not legally an officer of Justice. Dunn overruled the exception, tried the case and discharged the prisoner.

The prosecuting witness refused to take the stand or be sworn while a negro was acting as Recorder. He was asked if he intended to insult the Court, when he replied that he did, and was fined $25.

The French journals have had their ire stirred by the recent circular letter of Bismarck on the Salzburg Conference. One of them thus ventilates its feelings:

"M. De Bismarck pokes fun at us, with all the airs of an old style politician. He is the Don Juan of diplomacy who never smiles with more grace than when he provokes. What finesse in his irony; what perfection in his impertinence. Ah! Monsegneur, victorious and witty though you be, this is really too much. The best jokes become frothy when they are dwelt upon. It is all very well to mock people, but it will not do thus to fling in their faces the disdain that is felt for them.'

Another journal says:—

As for us, we declare, without ambiguity, that this document strikes us as a *chef d'oeuvre of impertinence*. We shall be very much mistaken if Prussian diplomacy can venture to hold forth much longer in this strain with impunity.

PLANT TREES.—Ten acres of timber will supply a family with fuel. Half an acre per year will suffice to keep two or three fires going constantly, or all the time a fire is needed. By the time the last half acre is cut over, which will be on the twentieth year, the first half acre will be again ready for the axe. Ten acres are enough for all the necessary purposes of fuel on a hundred and sixty acre farm, that is, one sixteenth part of the farm in timber. Timber will grow almost anywhere. Every farmer will do well to look at this matter. It will require only a few days work to start the ten acres. No other ten acres on the farm will yield a larger profit when the timber is once large enough to cut.—*Kansas Farmer.*

CURE FOR SPAVIN.—E. J. Rantz writes to the *Prairie Farmer*, that to cure a bone spavin the leg should be washed clean with soap and warm water, then clip off the hair and apply one ounce of pulverized sal ammoniac; one ounce of gum camphor; one ounce of Venice turpentine; one ounce of tincture of cantharides; one ounce spirits of ammonia; two ounces olive oil; twice per day and rub in thoroughly. Wash clean every fourth day, till well.

A "heavy horse" cannot be cured, that is if the disease be confirmed. But by damping the food given to the animal, giving water only in moderate quantities, and working carefully, the symptoms might be kept under, so that the disease will not interfere much with the creature's usefulness.—*Canada Farmer.*

Seventy one candidates were received into full membership in the State Street M. E. Church on Sunday afternoon last, sixty-nine of whom are fruits of the revival which took place in this town some six or seven months since; the remaining two by certificates from other churches. In the morning of the same day the rite of baptism was administered to three candidates by Rev. T. Snowden Thomas, pastor of the church. *Bristol Phenix.*

New Orleans papers recommend that the public schools should be closed on account of the yellow fever. Children suffering with this disease are sent home almost every day.

The largest arsenal in the United States is now being constructed on Rock Island, between Iowa and Illinois. Ten large buildings are being built, each to be 210 feet front by 300 feet deep.

It is now stated that although Chief Justice Chase may open the court at Richmond, in which Jeff Davis is to be tried, he cannot preside for any length of time, as the Supreme Court opens soon after in Washington. If then a desire is evinced to postpone the trial, Davis's counsel will enter a *nolle prosequi.*

At the lakes in the northern part of Maine on Monday, the snow fell to the depth of ten inches. At Rumford, Oxford county, there were four inches, which remained on the ground and roofs of buildings all day. Such a snow storm was never before known in those regions in September.

A Washington dispatch says: Senator Wade writes to a friend in this city that he will introduce, the first day of the next session, a bill to repeal the act organizing Utah as a Territory. He says the action of the Mormons in denouncing the Government as tyrannical and unjust, must be punished by a prompt suppression of polygamy. Having abolished slavery, Senator Wade says the next great measure of the Radical party is to abolish Mormonism.

The Springfield *Republican* says of the apprehension of trouble from the Maryland militia: "Maryland didn't rise above a mean guerilla share in the war, and nobody South or North, need be anxious about any mischief from her now. We can predicate a good deal on the foolishness of some men in and about Washington and Baltimore; but their folly will all be within the bounds of self-preservation."

A dispatch from Ellsworth, Kansas, says that two desperadoes, named Charles Johnston and George Craig, were forcibly taken from the custody of the officers last night by citizens, and hung.

It is rumored at Ellsworth that Gen. Butterfield and Superintendent Murphy are forcibly held by the Indians now assembled at Medicine Lodge Creek, waiting the arrival of the Indian Commissioners.

LICE ON HENS.—A subscriber in Brattleboro' wishes to know what will destroy lice on hens, when in their coops.

When hens are kept shut up their coops should be whitewashed frequently, especially about their roosting places, and if the hens are supplied with ashes in which to burrow, there will be but little liability of their being infested with lice. Air-slacked lime sprinkled about the place is also excellent. *Exchange.*

The citizens of Norwich, Vermont, have secured the buildings and grounds recently occupied by the Norwich University, and are spending between three and four thousand dollars to give them a thorough remodelling, furnish philosophical and gymnastic apparatus and the beginning of a library, with the design of establishing a boy's classical boarding school.

Contracts have been taken at St. Louis and Memphis for building the long projected railroad between those points, and work is to be commenced immediately by the construction of a levee about twenty-five miles above Memphis, for which the present low stage of water presents a favorable opportunity.

The Treasury Department has now under consideration a plan for manufacturing stamps so that the cancelled words cannot be washed out.

No. 2.
DR. SCHENCK'S
NEW OFFICE.
DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 HANOVER STREET, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption, or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.
Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part also; whether it is Tuberculous, Pulmonary, Bronchial, or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver complaint.
His medicines have full directions, so any one can take them without seeing him; but if they live near by, and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.
He keeps a full supply of medicines at his rooms, which can be had at all times.
Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills, 25 cents per box.

Wistar's Balsam of Wild Cherry.
Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the *Throat, Chest* and *Lungs*, prevail in our changeable climate at all seasons of the year: few are fortunate enough to escape their baneful influence. How important then to have at hand a certain antidote to all these complaints. Experience proves that this exists in *Wistar's Balsam* to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease and restores the sufferer to wonted health.
From Mr. W. BASSETT,
Depot-Master and also Postmaster at Agawam, Mass.
"I commend DR. WISTAR'S BALSAM OF WILD CHERRY to the afflicted portion of the community, as a remedy of no ordinary character in *diseases of the Lungs*, and fully entitled to all that it claims. My wife has been so severely troubled with a hard, dry cough, as to unfit her for the ordinary domestic duties of life, and threatening hard to result in CONFIRMED CONSUMPTION. Nothing seemed to afford any permanent relief in the usual remedies resorted to; but with my advice she began the use of WISTAR'S BALSAM, and with the most complete success, as a triumph of medicine over disease. A change was apparent to all, soon after commencing its use, and before using up the second bottle the cough had taken its departure. So much for those similarly afflicted and disposed to be skeptical."
Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

SCROFULA.
Dr. LUGOL, of Paris, one of the most eminent Chemists of Europe, said:
"The most astounding results may be anticipated when Iodine can be dissolved in pure water."
Dr. H. ANDERS, after fifteen years of scientific research and experiment, has succeeded in dissolving *one and one quarter grains* of Iodine to each fluid ounce of water, and *the most astounding results have followed its use*, particularly in Scrofula and diseases therefrom. Circulars free.
Dr. H. Anders' Iodine Water is for sale by J. P. DINSMORE, 36 Dey Street, New York, and by all Druggists.

The Great Success of HOFF'S MALT EXTRACT, Health Beverage, has been immense in our State, as well as all other States of the Union.
Its superiority as a Tonic has been stated by the report made to the New York Academy of Medicine by the Special Committee.
Its invaluability as a remedy for diseases of the Chest and Lungs has been proved by hundreds of cases, as well as by the testimonials of the most eminent physicians.
HOFF'S MALT EXTRACT has been used in many hospitals. Among others, in the Military Hospitals of Washington, D. C.; Perkins' Institution, and Massachusetts Asylum for the Blind, Boston; Girls' Lodging-house, New York; and has always shown its benefits to Invalids and exhausted Dyspeptics, and to persons affected with diseases of the Chest, Lungs, and Bowels.

American & Foreign Patents,

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington, (under the Act of 1837.)

76 State Street, Opposite Kilby Street, Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of Inventions.

During eight months the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS; EVERY ONE of which was decided in his favor by the Commissioner of Patents.
R. H. EDDY.

Testimonials.

"I regard Mr. Eddy as one of the most capable and successful practitioners, with whom I have had official intercourse. CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. POLAND
MAGIC BILIOUS POWDERS.

THIS PREPARATION is the discovery of the Rev. J. W. POLAND, formerly the Pastor of the Baptist Church in Goffstown, N. H., and a man dearly beloved by that denomination throughout New England. He was obliged to leave the pulpit and study medicine to save his own life, and his MAGIC POWDERS are one of the most wonderful discoveries of modern times. It is

Great Liver & Bilious Remedy!

which completely throws in the shade all other discoveries in medicine; and it affords him much gratification that they receive the unanimous approbation of all who have tested them. The Magic Bilious Powders are a

Positive Cure for Liver Complaint!

In its most aggravated form, and an immediate corrector of all

BILIOUS DERANGEMENTS!

Excellent for Headache,

CONSTIPATION,

Pimples, blotches, a Sallow Skin, Drowsiness, Dizziness, Heartburn, Palpitation,

And a most wonderful

Cure and Preventive of Fever and Ague!

(We advise all who are troubled with this fearful malady to always keep the Powders on hand ready for immediate use.)

Here are a few important particulars:

1st—They are the Great Specific for all Bilious Affections.

2d—They are the only known remedy that will cure Liver Complaint.

3d—They are the only known remedy that will cure Constipation.

4th—The Powders are so thorough in their operation that one Package will be all that the majority of those using them will require to effect a cure.

5th—They are mild and pleasant, yet the most effectual cathartic known.

6th—They are the cheapest and best medicine extant, as they can be sent by mail to any part of the globe for the price, 50 cents.

Circulars, containing certificates, information, &c., sent to any part of the world free of charge.

Sold by all Druggists, or by mail on application to **C. G. CLARK & CO.,**

TREASURE FROM MONTANA.—THE INDIAN TRIBES.

ST LOUIS, Oct. 6.

The steamer Only Chance from Fort Benton, Montana, arrived from Omaha Friday night with three millions in treasure and two hundred passengers.

The Indians had stolen some horses from the North-western Fur Company, near Fort Buford, and killed three men.

The latest information received from Superintendent Murphy, in charge of the Indians already assembled at Medicine Lodge, where he remains as a sort of hostage, is of the following purport: Little Robe, Medicine Arrow, Bull Bear, Tall Bull and White Horse, chiefs of the unruly Dogkillers have promised to come into the council. One of the runners employed by Mr. M. left Little Robe's village September 28, and had just arrived. Little Robe promised to come into the council, and said that he had been out on the last raid that he would make.—Little Robe had about two hundred and fifty warriors with him, and had returned from committing depredations on the railroad. Mr. Murphy further telegraphs that Roman Nose had been in to see him, and went away promising to be present at the council.

THIEVES ON THE PACIFIC ROAD.

ST LOUIS, Mo., Oct. 5.—Dispatches from Omaha say a party of thieves, whose operations have extended over the Pacific Railroad during the past six months, have been broken up, and most, if not all, of them arrested. The parties implicated were connected with the road.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS,

Their effects and consequences;

SPECIAL AILMENTS AND SITUATIONS

Incident to Married and Single Ladies

SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S

PRIVATE MEDICAL OFFICE,

No. 21 Endicott Street, Boston, Mass.,

is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is **No. 21,** having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

is the only regular graduate physician advertising in Boston.

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and LESS as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

SECURE A POLICY

—IN THE—

NORTH AMERICA LIFE INS. CO.,

I. Because it gives more Liberal Policies than any other Company. They are all non-forfeiting and incontestible. It insures **Officers of the Army and Navy,** in times of peace, at the usual rates, with no increased risks in event of hostilities. It makes no extra charge on change of occupation, nor for **TRAVEL or RESIDENCE, at any season of the year,** in the United States or Europe.

NEARLY A WORLD-WIDE POLICY.

It allows thirty days grace, on renewal payments and grants *weekly compensation* to those injured by public travel.

II. It is Most Secure.

It makes special deposits in the Insurance Department of the State of New York, for which the State guarantees the payment of its Policies, in case the Company should at any time fail to meet its obligation. No other Company gives the assured such security, or anything equivalent thereto. **That is Best which is Most Secure.**

III. It is most economical. Its ratio of claims and expenses, last year, was less than that of any other Company in the United States, which had been in operation a full year. Thus leaving in the hands of the Policy Holders the largest proportional sum for dividends.

Paris Exposition.

GOLD MEDAL.

An Admitted Fact.

It is admitted by all that ELIAS HOWE, Jr., President of **The Howe Machine Co.,** was awarded a GOLD MEDAL at the Paris Exposition.

Also, it is admitted that the *Grand Cross of the Legion of Honor* was conferred upon ELIAS HOWE, Jr., by the Emperor Napoleon. These were the HIGHEST HONORS ever awarded to a *Sewing Machine Manufacturer.*

THE ONLY QUESTION IS,

For what did ELIAS HOWE, Jr., *receive these honors?* He entered the Exposition as a MANUFACTURER of Sewing Machines, *not as "Inventor."* *He did not apply for or receive his Gold Medal as "Inventor."*

The AWARD speaks of Mr. HOWE as "*Promoter*" and "MANUFACTURER" of Sewing Machines.

Mr. HOWE (who is supposed to know) says the GOLD MEDAL was awarded to him *for his Sewing Machines exhibited,* AND FOR NOTHING ELSE.

Now in all fairness we ask, *Whose Sewing Machines* took the FIRST PRIZE at the Exposition?

Let COMMON SENSE answer, and we are content.

Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the oven to bake or roast perfectly and evenly, a great desideratum with a careful house-wife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and examine this "Peerless stove." Sole agent in Newport,

A Library of Universal Information.

THE NEW

American Cyclopædia:

A POPULAR DICTIONARY OF GENERAL KNOWLEDGE.

EDITED BY

GEORGE RIPLEY AND CHARLES A. DANA,

AIDED BY A NUMEROUS SELECT CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART, AND LITERATURE.

In 16 large volumes, 8vo.

750 double-column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he is so disposed, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires further information.—In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and the stock of knowledge increased, but perhaps information is gained and ideas are suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is pre-eminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia, worth in itself for purposes of reference at least a thousand volumes, is within the reach of all,—the clerk, the merchant, the professional man the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

"It is an enterprise of immense value to the public, and ought to be in every library, public and private, as an invaluable book of reference."

"We can confidently and conscientiously recommend the 'Annual Cyclopædia' to all who would have an accurate and readable history of contemporary events close at hand and as a safe work of reference."

Evening Traveller.

"It is indeed a most excellent work. It is thorough and reliable, and just such a work as is greatly needed, a faithful chronicler of important events, too numerous to be remembered, and of too much account to be lost."—*Cleveland Daily Plain Dealer.*

To all Hop Producers and Dealers.

The following resolution was passed at the Seventh Brewers' Congress at Chicago, June 6, 1867, viz.:

Resolved, That all sacks and bales of hops should be marked by the seller with the gross and the net weight, and that only the net weight should be paid for; that the members and associations pledge themselves not to buy any hops unless thus marked, or of any dealers who do not conform to these requirements; that they should go into effect when the new crop came into market in the Fall. jy31—2m,d

ACROSS THE SIERRA NEVADAS

THE

Central Pacific Railroad.

THE WESTERN HALF

OF THE

GREAT NATIONAL TRUNK LINE

Across the Continent,

Being constructed WITH THE AID AND SUPERVISION OF THE UNITED STATES GOVERNMENT, is destined to be one of the most important lines of communication in the world; as it is the *sole link between the Pacific Coast and the Great Interior Basin*, over which the immense Overland travel must pass, and the

Principal Portion of the Main Stem Line between the two Oceans.

Its line extends from Sacramento, on the tidal waters of the Pacific, eastward across the richest and most populous parts of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About **100** miles are now built, equipped and in running operation to the summit of the Sierra Nevada. Within a few days **35** miles, now graded, will be added, and the track carried entirely across the mountains to a point in the Great Salt Lake Valley, whence farther progress will be easy and rapid. Iron, materials and equipment are ready at hand for **300** miles of road, and **10,000** men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in Gold:

Gross Earnings,	Operating Expenses,	Net Earnings,
$487,579 64	$86,543 47	$401,031 17

or at the rate of two millions per annum, of which more than three-fourths are net profit on less than 100 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal ratio of government transportation, and is exclusive of the materials carried for the further extension of the road.

The Company's interest liabilities during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the proportions of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the roads now building east of the Rocky Mountain ranges. Assuming that they will build and control half the entire distance between San Francisco and the Missouri River, as now seems probable, the United States will have invested in the completion of **865** miles **$28,502,000**, or at the average rate of **$35,000** per mile—not including an absolute grant of **10,000,000** acres of the Public lands. By becoming a joint investor in the magnificent enterprise, and by waiving its first lien in favor of the First Mortgage Bondholders, THE GENERAL GOVERNMENT, IN EFFECT, INVITES THE CO-OPERATION OF PRIVATE CAPITALISTS, and has carefully guarded their interests against all ordinary contingencies.

☞The Company offer for sale, through us, their

First Mortgage Thirty-Year Six Per Cent. Coupon Bonds,

Principal and Interest Payable in Gold Coin,

in New York city. They are in sums of $1,000 each, with semi-annual gold coupons attached, and are selling for the present at 95 per cent. and accrued interest from July 1st added, in currency, at which rate they yield nearly

Nine Per Cent. upon the Investment.

These Bonds, authorized by act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government; and represent in all cases the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, Stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guarantees of the Pacific Railroad Act of Congress, and have in addition several noticeable advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the through line.

Second—Beside the fullest benefit of the Government subsidy, (which is a subordinate lien,) the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now about completed.

Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates payable in coin.

Fifth—The principal as well as the interest of its Bonds being payable in coin, upon a legally binding agreement.

Having carefully investigated the resources and prospects of the Road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an eminently *sound, reliable and remunerative form of permanent investment.*
